THE PLATFORM **AT A GLANCE**

One platform, three connected parts. Everything below is a screen from the working build.

Public website
Bilingual, phone-first, with the Language Hub

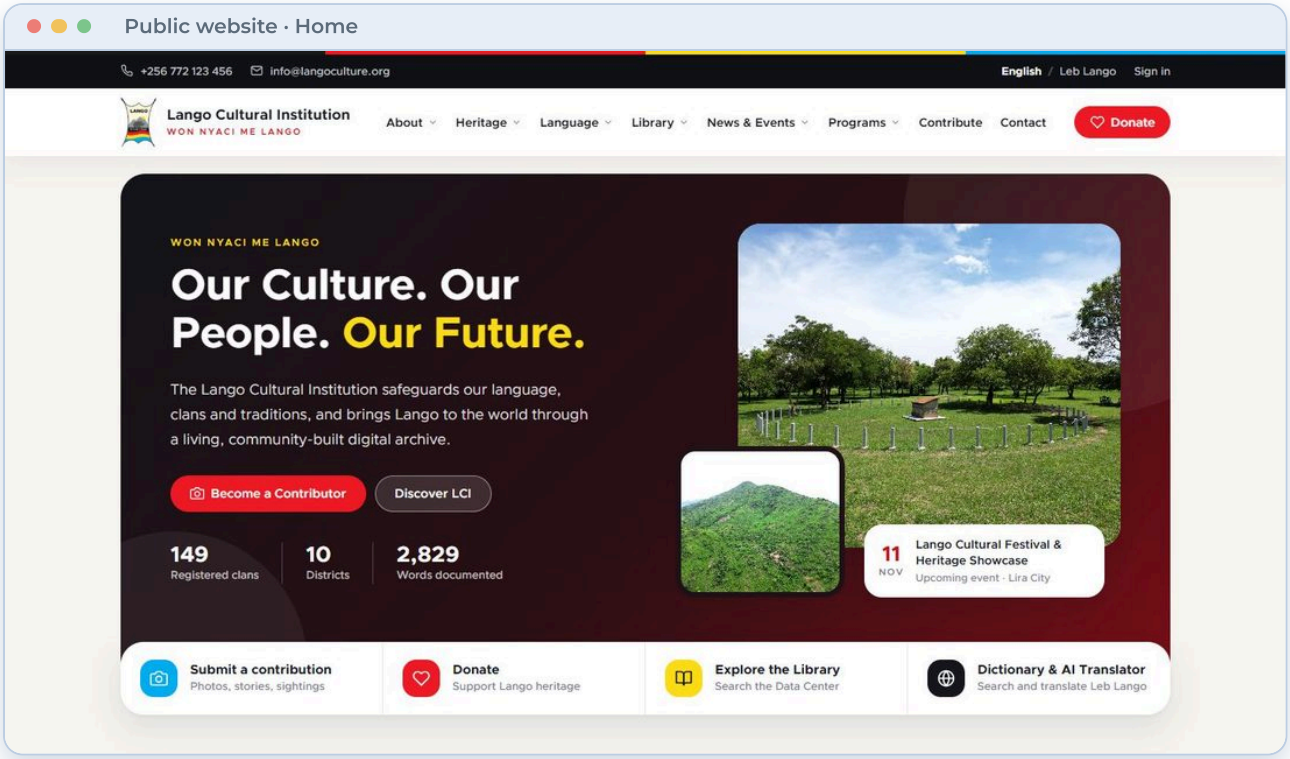

Admin control panel
Roles, a review queue and records, no coding

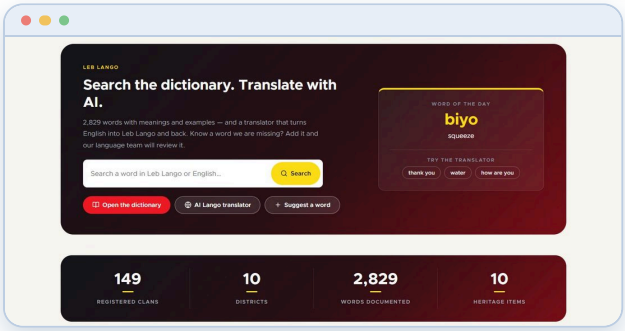

Mobile app
Android and iOS, offline first

One platform, one review queue. A word suggested on a phone appears on the same screen staff use for the website.

WEBSITE: **HOME PAGE**

Language Hub
Dictionary search, word of the day and the translator, on the home page.

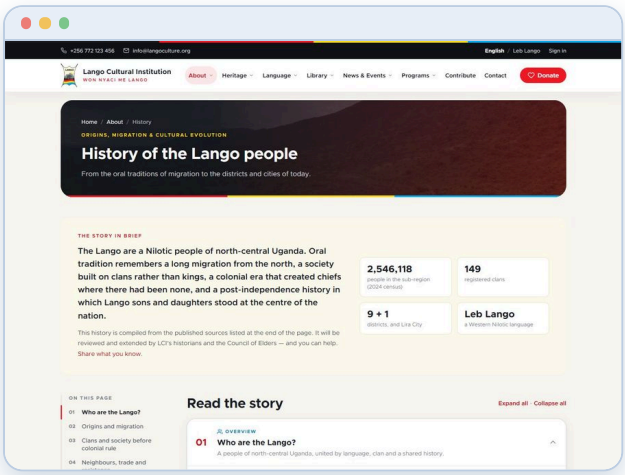

Contribution engine
Four simple steps invite visitors to add to the archive.

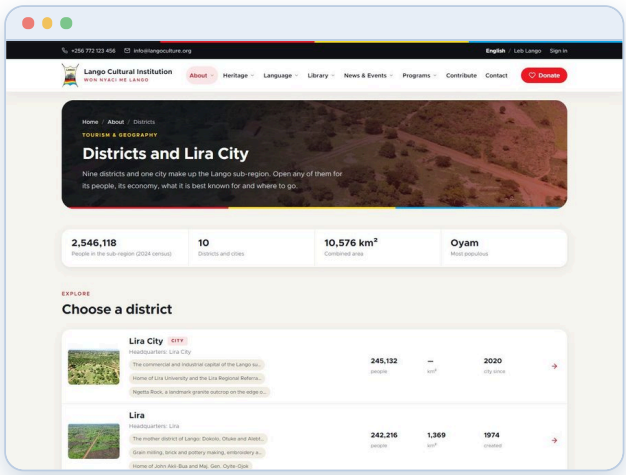

> **Fast, bilingual and phone first.** Visitors switch between English and Leb Lango in one tap.

FROM CONTRIBUTION **TO ARCHIVE**

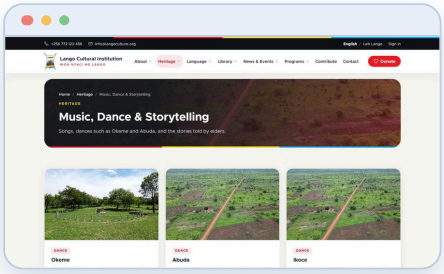

The same flow serves the website and the app. A member records on a phone, staff review on a laptop, and the record is published for everyone.

Capture
On the phone, even offline.

Review
Staff read, edit and decide.

Publish
Live on the website and in the app.

1
Capture
on the website or app, even offline

2
Submit
a tracking code is issued at once

3
Review
a moderator reads, edits and decides

4
Specialist check
clan leader or review panel, where needed

5
Publish
with contributor and source recorded

6
Notify
in-app and push, with points and badges

The platform never invents culture. Content comes only from the Foundation, published sources shown on the page, or contributions a reviewer has approved.
